WHY CHOOSE TMK TREE SHEAR?

We at TMK know the requirements of effective tree clearing and safe problem tree removal, as we are experienced in these operations ourselves. Drawing on all our know-how and experience, we created the TMK range of products for both professional and occasional forestry work.

Hardox-steel, unique capsular structure and user-oriented design ensure that our products withstand even the toughest conditions. The TMK Tree Shear and the numerous attachments that are available for it are easy to install on an excavator or mini excavator, harvester, forest loader or agricultural tractor.
